NUMBER 42

Tax Assessor Asks County Commission For \$27,834.34

The Coffee County Commission met in regular session on Monday, March 10, at the courthouse in Elba, and heard Tax Assessor Mack McKinney ask for \$27,834.34 to cover additional salaries he had to pay due to the reappraisal program.

Documents presented at the meeting showed that the tax assessor general was asked about whether or not it would be legal to pay McKinney, and the answer was "It is not necessary for the county commission to determine for itself that the additional cost and the salaries from

October 1978 through September 1979, McKinney told the court, had been spent \$27,834.34 out of his pocket, and asked if he could be repaid.

McKinney presented figures to the Commission that showed he had to pay \$12,141.11 to extra salaries from October 1978 to October 1979, and an additional \$15,693.15 in salaries from

to be paid were the result of the reappraisal program. However, acting on the fact that the Commission is true, the Commission could reimburse the tax assessor for the work performed.

"It's not as bad as I thought," said McKinney, "and I had expected it to be around \$10,000." He had to pay \$5,800 to have car keys written out by hand, and I haven't had a good night's sleep over a year. I have employed a certified public accountant to compute my additional expenses down to the nickel, and the figure is correct."

Documents presented at the meeting showed that the tax assessor general was asked about whether or not it would be legal to pay McKinney, and the answer was "It is not necessary for the county commission to determine for itself that the additional cost and the salaries from

October 1978 through September 1979, McKinney told the court, had been spent \$27,834.34 out of his pocket, and asked if he could be repaid.

"I don't think a public official should have to take money out of his own pocket to run his office," said Commissioner Bennie Beckham, "but I don't think the Commission doesn't have to cover the whole bill." Each agency effected should pay their share of the

Monday's meeting began at 10:00 a.m. with all commission

ers present, except Don Smith and Jack Hornby, both of whom were ill. At the meeting were Commissioners Gilmer Grant, Rex Boutwell, Bennie Beckham and Max J. Reeves, along with Probate Judge James L. Sawyer.

The meeting opened with Judge Sawyer reading a motion from Commissioner Mayor Frank Sawyer and the New Brockton Rescue Squad, both of whom thanked the Commission for their recent \$5000 donation to the Rescue Squad.

The Commission approved two \$50 reviews for federal funding. They review \$475,404 to help the Organized Community Action Program (Headstart), and \$191,404 for the Alabama Department of Seasonal Farm Workers Council.

County Engineer Leslie Mullins requested the date of his retirement be moved up to May 20, and the Commission accepted his request. Mullins, who is 69 years old, has worked with the county a total of 19 years, and has been Commissioner for the last 3 years in his latest position. Mullins stated he has been offered a position with the state, but he would accept the resignation with reluctance.

The meeting opened with Judge Sawyer reading a motion from Commissioner Mayor Frank Sawyer and the New Brockton Rescue Squad, both of whom thanked the Commission for their recent \$5000 donation to the Rescue Squad.

The Commission approved two \$50 reviews for federal funding. They review \$475,404 to help the Organized Community Action Program (Headstart), and \$191,404 for the Alabama Department of Seasonal Farm Workers Council.

County Engineer Leslie Mullins requested the date of his retirement be moved up to May 20, and the Commission accepted his request. Mullins, who is 69 years old, has worked with the county a total of 19 years, and has been Commissioner for the last 3 years in his latest position. Mullins stated he has been offered a position with the state, but he would accept the resignation with reluctance.

Mullins reminded the Commission that at the previous meeting the commissioners were being driven over to repair a bridge on the Airport Road in Elba, and at Monday's meeting he presented the paperwork that must be sent to the state.

"The bridge is dangerous," said Mullins, "and we need the money to make it safe. If the money becomes available at the state level, these plans will help us get some funds. The plans must be finalized by the state before any work can be done, and by getting them authorized now, we'll stand a better chance of being funded."

The Commission approved sending the plan to the State with a check for \$900 so a preliminary study could be made as soon as possible.

If the commission adopted by action, the commission is acted on favorably by the state legislative delegation, the new commissioners will receive a pay increase. Commissioners now receive \$350 a month in salary and \$450 a month as an expense account, or a total of \$800 a month.

"I think \$350 a month is inadequate as a salary," declared Commissioner Bennie Beckham, "and we need to increase it either in salary or expense account. When I go to meetings and tell people what I make, they think I'm a joker. I think we should ask the county's legislative delegation to discuss the request, and if they feel we deserve a raise, then we should be able to increase the salary of the next group of commissioners."

The resolution passed unanimously.

When the time came to pay bills, the bill went smoothly until a \$693.75 bill from a Birmingham law firm hit the table. The bill circulated around the table several times, and when it got to the third trip, it did pick up the signatures of Bennie Beckham and Max J. Reeves.

"The results of this study will be utilized in the design and further development of the plant for the proposed Elba Western Business Highway," according to the inspector, is "too small for the jail and in poor condition."

A general report on the jail states that heat and ventilation are in adequate, and that the jail does not meet fire safety regulations" stated in Title 14, Chapter 6-96. Continuing the report states that necessary items are in the jail, such as electrical appliances and extension cords. The kitchen, according to the inspector, is

"poor and refrigeration poor. Standards of sanitation are not adequate!"

Motorists who are dwelling on the highway and are staying studied will be stopped and asked where their trip originated and what their destination is.

Tractor Company, and Lamar Rancher of Peoples Bank in Elba, made a call on Bryan Wildon Bryan makes the historic call and left to right: Jimmy Holley, Bryan Tom Casady, Drexel Cook, and Lamar Rainier.

The results of this study will be utilized in the design and further development of the plant for the proposed Elba Western Business Highway.

The public's cooperation and indulgence during the time the inspection was underway is solicited.

The report did note many

Garbage Problems Prevail In County School System

Shown above is a typical problem with the county schools. The garbage problem is a continuing headache for school officials. County Superintendent Jimmie Vaughan said this week that apparently the school system was being forced into hauling its own

garbage and he was taking steps immediately to do so. The county commission has a truck for picking up bagged garbage for households, but apparently can't handle the school program. A private contractor program wasn't working, according to Vaughan, and the results was the above pile of trash.

Carter, Reagan Win Big In Local Voting

Coffee County voters joined with voters statewide in endorsing both Ronald Reagan and Ross Perot to represent their respective parties in the November elections. Reagan beat Bush 50.97%, or 6 to 1, while Carter beat Kemp 49.03% to 49.03%, or almost 10 to 1. Governor Brown of California polled 112 votes, and all other candidates polled less than a hundred votes total.

Coffee County voters only

approved four of the eight amendments. Two, Five, Six and Eight were favored by both Carter and Reagan. The much-advertised #1 tax reduction amendment failed locally as well as statewide. Also losing was the proposal to pay legislators more expense money. This failed locally and statewide.

Reports to the people of Alabama

Alabama voters went to the polls Tuesday in less than a record turnout. We are surprised that some people thought there would be a heavy voter turnout. The "experts" are now trying to figure out why unexcited Alabama voters failed to go to the polls, and why those who did vote voted against the tax cut. We are also surprised that the voter is tired of the way things are going, and if they do bother to vote, they are going to voice a small protest. The small protest, coupled with many more small protests, makes for a big, loud roar.

One editor voted on all the amendments . . . some yes and some no. We did not know what the other editor's stand was. Some members of the legislature joined the majority in opposing that tax cut. We also opposed the mileage pay for the legislators, not because of the money, but because one more voice of protest against the last raise they voted themselves. We were with the majority on that matter. We also voted to increase the state sales tax by 1 cent, to help our additional school tax, and also to let peanut farmers establish their own insurance program. We were surprised to see so many of the non-peanut farmers even oppose this deal. All the amendments pertaining to local areas away from here got a yes vote from us, because it was really none of our business. Early returns, however, indicate some of these failed statewide.

The only thing that could bother us about the Jimmy Carter win over Ted Kennedy is that the margin was not a little larger! That is kinda ugly, but Teddy got enough votes to win a few delegates, and we don't want him to gain in Alabama.

The Bargain bin is expected, but means little now that Gerald Ford has turned his machine selling again. My knowledge of politics is about equal to my knowledge of tomorrow's weather, which is just a guess - I predict the November election will be between Carter and Ford.

Several states have begun "indexing" their state income tax to compensate for this runaway inflation. They are doing the taxpayer a favor that we in Alabama and most other states do not. We do not have an automatic income tax increases without a vote. The idea though now is that in Alabama we are not indexing, but are talking of an increase in the income tax on top of the inflation increases as incomes rise!

The recent jump in the prices of gold and silver has shocked many of us and continues to make headlines. However, little has been said about platinum as the price of this metal moved past the \$1,000-per-ounce price!

We recently mentioned a bill the County Commission had for drafting a sales tax bill. That statement was paid recently by approval of the Probate Judge. When the bill was presented for approval again Monday, only two commissioners signed it. We wonder now what the status of that payment is in legal circles.

The Wall Street Journal reported that the total use of personal credit cards in 1979 was the most of the last 10 years, from a 5% drop in the use of gasoline. This predicted that prices keep rising, and economy cars keep selling this trend will continue. It seems the good ole USA is the only major nation to record a drop in consumption of oil in 1979! Maybe we are doing something right for a change.

If anyone is interested in the cost of room and board, read this: New York average for one night, room and three meals, is \$101.60, while the same would cost \$43.85 in Jacksonville, Florida.

Charitable Deduction Should Be Allowed For All Taxpayers

Fifty years ago the average American gave about seven percent of his income to charities, joined the majority in opposing that tax cut. We also opposed the mileage pay for the legislators, not because of the money, but because one more voice of protest against the last raise they voted themselves. We were with the majority on that matter. We also voted to increase the state sales tax by 1 cent, to help our additional school tax, and also to let peanut farmers establish their own insurance program. We were surprised to see so many of the non-peanut farmers even oppose this deal. All the amendments pertaining to local areas away from here got a yes vote from us, because it was really none of our business. Early returns, however, indicate some of these failed statewide.

Today the taxpayer works through May 6, more than four months before he starts working for the tax man. It is little wonder that more and more Americans are becoming angry and frustrated at our tax system which has become oppressive and unfair.

There are many things Congress can - and should - do to give immediate tax relief to the American people. One solution is to restore equity to our tax system. This can be done by jointly sponsoring a bill, the earlier the better, which will restore the standard deduction to the level of the non-peanut farmer. That is the kind of tax cut we are talking about. The administration's proposal which would restore the standard deduction to the level of the non-peanut farmer is a good start, but it is not enough.

Today the taxpayer will give up his charitable deduction exclusively to the church, charities, and the American Cancer Society, the United Way and other worthy causes which are just as worthy as the non-peanut farmer. But they are not given the same break as the non-peanut farmer.

Today the taxpayer will give up his charitable deduction exclusively to the church, charities, and the American Cancer Society, the United Way and other worthy causes which are just as worthy as the non-peanut farmer. But they are not given the same break as the non-peanut farmer.

EHS

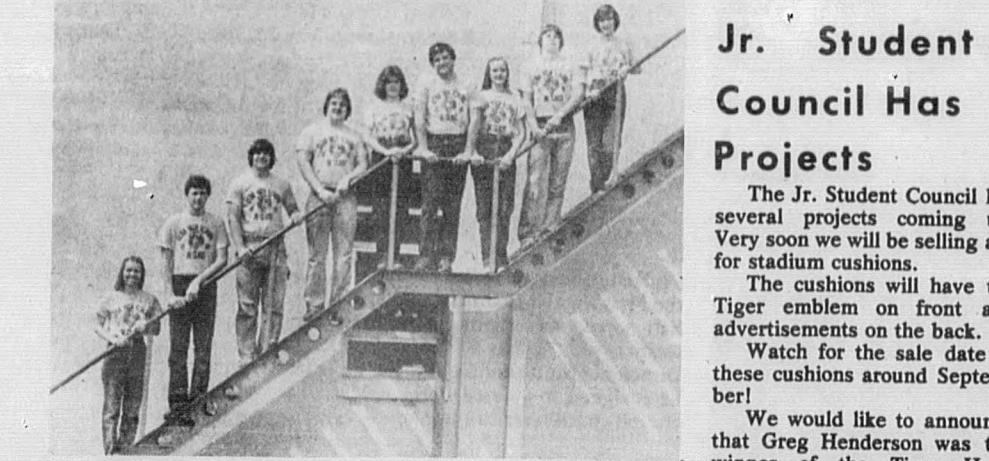

BLACK AND GOLD REVIEW

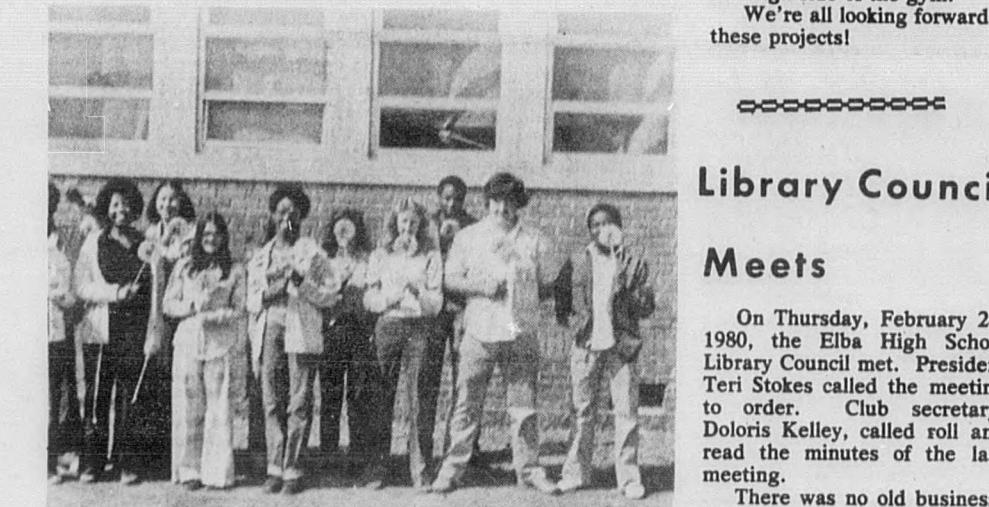

Presidential Classroom
Students Visit Washington

Scene from the Jr. Class party held on Thursday, March 7, 1980.

The top nine salesmen in the Jr. Class magazine sales are shown above.

Pictured above are members of the Jr. class who participated in the magazine sale, but did not receive a T-shirt. They received a lollipop at the Jr. Class party.

Magazine Sale Successful

"We made it!", says the Junior Class of Elba High School. It was hard work, but gratifying when they reached their goal and went over.

We set our goal at \$15,600,

and we reached it and went to \$16,671.62. We also had a quota of \$169.67, and 62 met their goal. Only ten students in the class did not participate.

The top nine salespersons in order were:

Marcia Richburg - \$913.89;

Chris English - \$895.98;

Allyson Laughlin - \$745.44;

Mason Morris - \$643.00; Nita Calhoun - \$442.27; David Dorsey - \$418.13; Phil Hayes - \$362.75; Tim McDonald - \$362.74; and Donna Hudson - \$300.

These students will receive prizes ranging from stereos, portable telephones, blenders, white shirts, AM/FM radios. Several other prizes are offered; each will choose his prize from a graded chart.

The ones who reached their quota received an Elba Tiger T-shirt and they will now be entitled to a free prom ticket.

In the end, Mrs. Padgett's homeroom,

Mr. Padgett's homeroom was the highest with \$5077.65. Only two students out of twenty in this homeroom did not participate.

Mrs. Farmer's homeroom

was second high with a turn-

out of \$4852.12.

Young's homeroom sold \$4191.00,

and Mr. Amos' homeroom was fourth with \$3906.37.

The winners of the contest were announced on Thursday, and

with a party on Thursday, and

all students who sold magazines were invited to the party.

We thank all citizens who

participated and helped make

our campaign a success. This is

evidence of some fine young people and a cooperative com-

munity.

Elba Tigers Take Week

Off From Spring Football

Well, the high school basketball season is finally over, and after watching 12 games in only 2 days last week at the state tournament, I'll have to admit I'm glad! It was a very competitive tourney with well-balanced teams in every class, and almost every game the last two or three days had to go to overtime. By the way, championships were Alabama Luther Academy, Class A; Elba, Class B; and Coffee, Class C.

Class A, Red Level fell behind 50-18 at the half and lost to Leroy 85-50 in the open round. Prentiss called the game a good class that played well together, and their top player (Fred Davis) was just a sophomore.

Class B, Elba included a very strong fast with plenty of highlights and a lot of very good players. Georgians represented the local area and won one game before being ousted by Talladega County 64-48. Talladega County had a strong team that had a deadly combination of inside power and speed, and they were the best in 2A.

Class C, Coffee had a solid club that has reportedly been playing together since the third grade! That's what one of their players said. The Indians had a dominant style of play and may have been the best team in the whole tourney. And they had a great time in the opening round to Evergreen, who then lost to Wetumpka.

Class 4A, was won by Coffee, of Florence, a club that played true team ball. Coffee had nine wins over Wenonah, Tuskegee and Mt. Meigs. They never got shooed and made all their opponents play their game. Enterprise lost in the opening round to Blount, but could have won, and they will be back!

Here are a few remembrances of the 1980 state tourney:

**Class A, Red Level fell behind 50-18 at the half and lost to Leroy 85-50 in the open round. Prentiss called the game a good class that played well together, and their top player (Fred Davis) was just a sophomore.

**Class B, Elba included a very strong fast with plenty of highlights and a lot of very good players. Georgians represented the local area and won one game before being ousted by Talladega County 64-48. Talladega County had a strong team that had a deadly combination of inside power and speed, and they were the best in 2A.

**Class C, Coffee had a solid club that has reportedly been playing together since the third grade! That's what one of their players said. The Indians had a dominant style of play and may have been the best team in the whole tourney. And they had a great time in the opening round to Evergreen, who then lost to Wetumpka.

**Class 4A, was won by Coffee, of Florence, a club that played true team ball. Coffee had nine wins over Wenonah, Tuskegee and Mt. Meigs. They never got shooed and made all their opponents play their game. Enterprise lost in the opening round to Blount, but could have won, and they will be back!

Geneva High School has hired Lionel Fayard as their new head football coach, and he could be the spark needed to liven up their lowly program. Fayard had been an assistant at Choctawhatchee High School in Ft. Walton for seven years, where he was offensive coordinator, and his teams rolled-up a fine 59-12-1 slate. Looks like they got a good one.

Warnie Johnson has arrived and that means it's almost spring football. The League's have held a couple of meetings already, and early reports indicate we'll have a 12-team Men's League and an 8-team Women's League. Softball will officially start on Friday and Saturday, April 18-19, when the Elba Jaycees will hold a men's and women's softball tournament. The league will then open regular season play on Monday, April 21.

The softball teams have been practicing for a couple of weeks, but they're not the only people getting ready for the season! The umpires have been brushing up on the rules and have discussed all the aspects of the game. The umpire play an important part, and they're getting ready just like everyone else.

Remember, the weather is warming up, so get out there and enjoy the warm weather and is doing quite a bit of work. The mini-rounds around town are cleaned-up and the children's swings are ready to go. The fences around the Dixie Youth and Babe Ruth parks have been repaired, and the gates have been replaced, not to mention a new coat of paint being applied to the concession stand and pressbox.

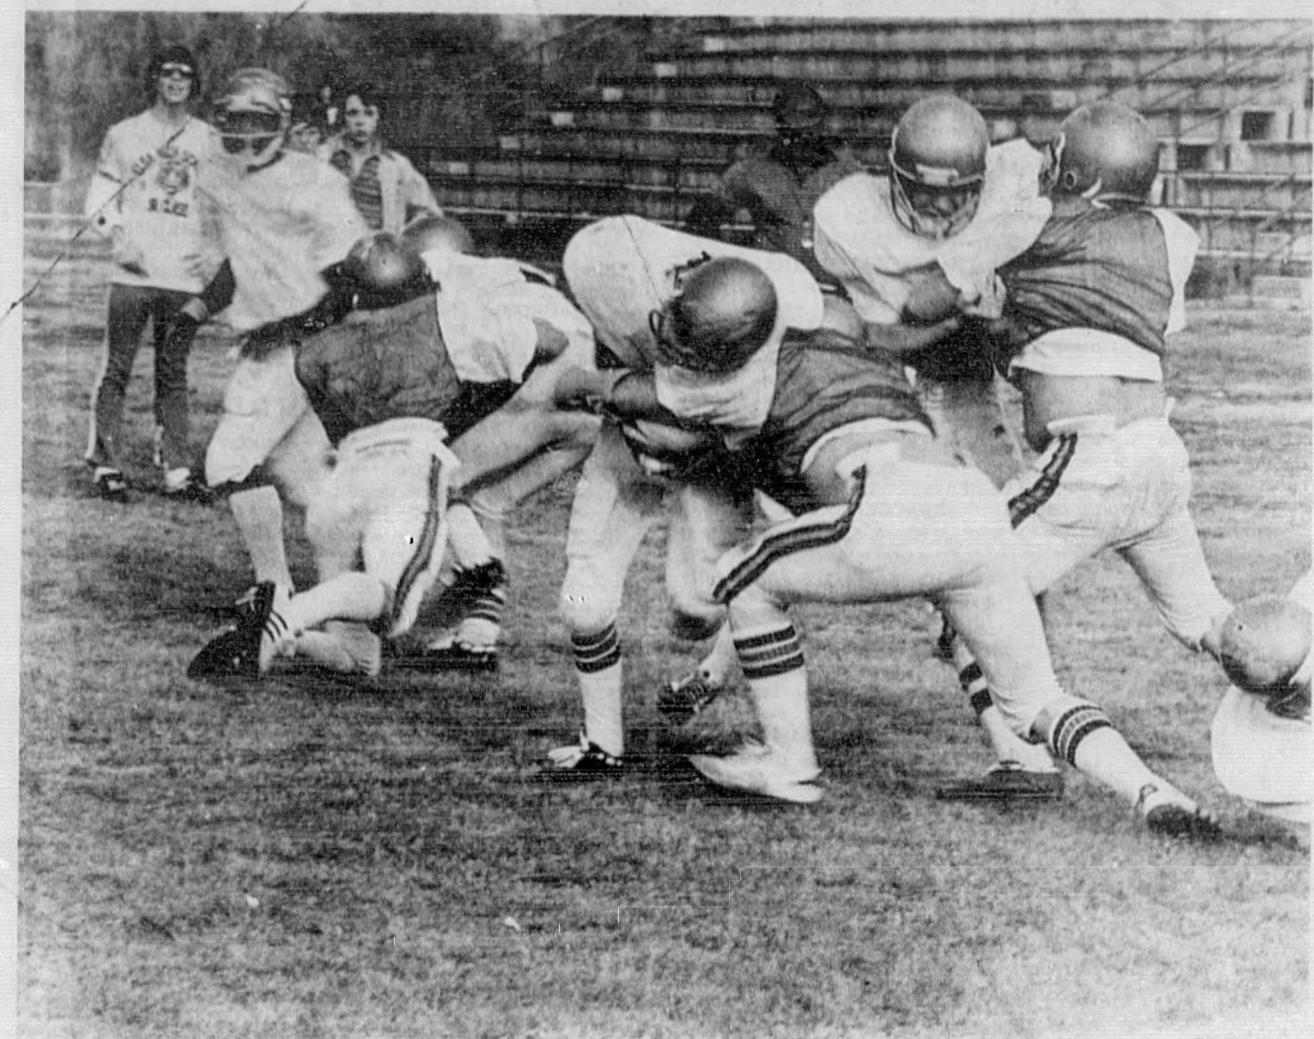

Yes sir, everybody is getting ready for summer.

For those of you who like softball, never fear, baseball is just around the corner. Dixie Youth and Babe Ruth players will be signed-up next week, and as soon as managers sign-up, practice will begin. The softball will be played at Legion Field under bases that have started, and leave the field open.

I urge all parents and ball fans to keep the sign-up date in mind, and go with the kids to register. Dads, don't just watch, get out and help coach your son's team. He'll only be happy once!

There isn't much sports this week because it's between seasons and the schools are out for AEA holidays. However, you can be sure a big summer of sports is headed your way.

Till later....

Plenty of contact in recent scrimmage at Tiger Stadium.

FISHIN' TIPS

from... Tom Mann

April 26 and 27 are the dates for the 1980 George Lindsey Cup, which is to be held in Montgomery. This year's will be the eighth consecutive year with the game towns of the Alabama Special Olympics program and also other programs for Alabama's mentally handicapped citizens.

The cup will consist of two big events -- the Great Stars Show on Saturday night, and the George Lindsey Celebrity Cup on Sunday.

Past events have brought in over \$300,000 for the program.

The year before the Stars Show

will begin at 8:00 p.m. at the Montgomery Civic Center and

will provide shuttle bus service from the parking lot into Arrowhead Park.

Performing at the year's show will be the Oak Ridge Boys, Roy Clark and Buck Owens.

Charlie Pride, Charlie McCoy and the Hee-Haw Band, Polly Holliday, Jana Jae and of course, the Dixie Chicks.

Polly Holliday is best known for her role as "Kiss My Gristle" on the TV series "Alice," and Jana Jae is one of America's

greatest fiddle players.

All celebrities who will be attending the golf tournament the next day will also be in the audience and will be introduced during the show.

The first 50 of America's top entertainers in sports and recreation will be playing golf on Sunday at Arrowhead Country Club.

Some of the celebrities who will be performing include Paul "Bear" Bryant from the University of Alabama, Doug Barfield from Auburn University, Charles "Babe" Winkelman, Tommy Neville of the New York Giants, Sam Cunningham with the Atlanta Braves, Paul "Giant" Johnson, Johnny Davis with the Tampa Bay Buccaneers, Norman Alden from "Mary Hartman, Mary Hartman," Barry from "Foul Play," Gordie Howe from "Hee-Haw," Bo Hopkins from "Wild Bunch," and "Aspen," Robert Duvall, from "Marty," The Madisons from "National Lampoon's Animal House," and the cast from "The Tonight Show."

BRER TOM: "I've been catching a lot of school bass lately, none over two/three pounds. How come they all are averaging so close in size?"

BASSIN' BUDDY: "Robert Ginty from "Paparazzi" and Joe Higgins from "The Rockford Files" are from the same place. Both are from the Dixie Cup. Fred de Cordova and Bob Quinn from "The Tonight Show" and many, many others will be announced during the next few weeks."

FEET OFF THE GOLF: For the golf tournament is set for 10:30 a.m. and drivers will be in the parking lot at Arrowhead Gatz. Kindergarten through 12th graders will be in the parking lot into Arrowhead Park.

For further information about the George Lindsey Celebrity Benefit, contact the Weekend Office at 263-8984 or write Post Office Box 1443, Montgomery, Alabama 36102.

HEY TOMBOY: "I know you reel a crank bait fast, but can you tell me just how fast?" PUZZLED PETE.

HELLO PETE: It's a misconception that crank baits should be reeled fast. The faster you reel, the faster it has to drive a lure deep in cold water.

Normally, I feel the lure part me a few times to see at what speed it gives the best action. If you want to drive a bait really deep, stick your rod tip under water.

TON: "I know you all the pro fishermen well. Honest, who is the best fisherman today?" CHUNKER CHARLIE.

HELLO CHUNKER: First, let me say I believe there are a lot of pro-fishers who could do just as well in tournaments. But this is the only yardstick to fairly judge by, tournament trail record. Year after year, pound after pound, it's got to be a heckuva fisherman and super fellow -- Roland Martin.

HEY BASSIN' MANN: "Do any of your freshwater tactics also work on saltwater fish?" SALTY PETE.

HELLO SALT: You bet! As in freshwater, I look for old docks, docks, car bodies, piers, rock piles, etc. Here small fish hide and bigger fish hang around trying to catch them. I drop a string rug grub straight down and "feel" the bite. If it's a good bite, I set it.

FOR FASTER-MOVING SURFACE FISH like bonito and mackerel, reel that grub as fast as you can move it. And I'm hardheaded about color choices. My top two favorites are white and white, in that order!

The final pre-season meeting of the year's Softball League is set for noon on Saturday, March 18, at the Recreation Center. 7:00 at the Recreation Center. Anyone wishing to enter a team in the league must be at this final meeting!

Coffee County Fishing Lake

Facilities Improved

During this winter Fisheries Section personnel of the Game and Fish Division have been busy improving facilities at Crim Lake.

The lake level was lowered last fall to improve fish population balance and to allow heavy

equipment to work on the lake's exposed bottom. The shoreline was deepened and earthen fishing piers were constructed using a large amount of material.

Grass seed was sown to reduce erosion. Fish attractors were constructed from brush and trees, and were strategically placed around the new fishing piers.

The shoreline length was increased, cleaned, brush and trees along the bank at the launching ramp was resurfaced to make boat launching easier.

Fertilizer platforms were improved to increase the fertilizer's effectiveness.

These improvements will provide better access to the lake and will provide better fishing opportunities for the citizens of Coffee County and the surrounding counties.

Five-time Winston Cup

champion Richard Petty leads the all-time Winston bonus list.

With nearly \$300,000 followed by three-time champion Dale Jarrett with \$213,000.

Mark Kelley, Jeff Stewart and Freddie Thomas caught these bass in a private pond.

Danny Sanders and David Carter caught four bass at a private pond on plastic worms.

S P O R t S

Mr. & Mrs. Grady Williams

HONORED ON GOLDEN ANNIVERSARY

Mr. and Mrs. W.K. (Kenneth and Betty) Coon announce the engagement of their daughter, Debra Diane Coon, to Simon Rivera, Jr., son of Mr. Simon Rivera, Sr. and Mrs. Guadalupe Rivera of San Antonio, Texas.

Grandparents of the bride are Mr. and Mrs. George of Brantley, Alabama, and Mrs. Rosa Coon of Elba. Step-great-grandmother is Mrs. Inez Nichols of Enterprise, Alabama.

Mr. Rivera is a graduate

of Elba High School, and attended Enterprise State Junior College. She entered the United States Air Force in 1977. She is presently stationed at Goodfellow Air Force Base, Texas, working as Airman-In-Charge of the Medical Clinic there.

Mr. Rivera graduated in 1972 and joined the Air Force as a Radio Communications Analyst. He has completed

Goodfellow AFB, Texas; Chickliss AFB, England. He is presently stationed at Misawa AFB, Japan.

Mr. and Mrs. W.K. Coon's wedding is scheduled for September 13, 1980, at 2:00 p.m. at New Haven Baptist Church. There will be a reception at the church following the ceremony.

A wedding trip to Disney World, Orlando, Florida, is tentatively

scheduled for the honeymoon.

No formal invitations are being sent, but all friends and relatives of the couple are invited to attend.

Mr. and Mrs. Grady Williams were married on February 15, 1930, by John Max Stokes in his home. They have spent their lives in Covington and Coffee County.

The Williams' are parents of three children: Kenneth, who married to the former Ella Wilkerson of Elba, and resides in Union Springs; Herschel, who is married to the former Patricia McWhorter of Elba, and they live in Elba; Glenda is married to Douglas Williams of McMinnville, Tennessee, and lives in Birches.

Mr. and Mrs. Williams are the grandparents of eight children. The only members of the family who were unable to attend the reception were

grandchildren Kim, and husband Bobby Miller, of Fort Worth, Texas.

Grace and Bob Williams entered the church building and directed them to the reception room. Stephen

Dobbs and Pam Williams presided over the refreshment table which held the beautiful three-tiered anniversary cake, pretzels, cheese straws and auto.

Gift tables were prepared

over by Stephen and Owen

Williams of Montgomery, and Master Art Williams.

Tables held a special interest in that an 8 x 10 color picture of the couple during courtship days was presented on each table. Guests enjoyed seeing how they looked then.

Over 100 guests came by during the calling hours.

Mr. and Mrs. Williams make their annual call to the Elba

Chamber of Commerce.

NEWS FROM ALABAMA LUNG

SHUFFLING SAGA OF THE FAMILY CAR

The all-purpose car has been a central part of the American lifestyle; and life-style, until catalytic converters were mandated in the 1970's, air pollution controls were applied to the American Lung Association. Now skyrocketing prices and fuel economy are altering the way we live and drive.

Gasoline production will reach a peak in 1982, predicts the Stanford Research Institute in California. Prices decline throughout the rest of the decade. The importance of the family car, they say, will travel the same path.

In the 1980's, the Institute predicts, a wider variety of vehicles—including motorbikes and electric cars—will be used for short-distance travel. Larger vehicles would be for longer trips. But many will be leased rather than owned.

The car of the 1980's, the Institute says, will be made of heavy-duty plastic. Because it is lighter than today's metal cars, it will use less gas. Lighter cars are also more adaptable to battery power. One major manufacturer is already working on a hybrid vehicle that runs on battery power at speeds up to 20 miles per hour. New lifestyles, too, will help. New lifestyles can engine—should help protect healthy lungs.

THE CHRISTMAS SEAL PEOPLE. It's a matter of life and breath.

ALCOHOLISM Losing Control

It is not when, how often, or one drink that determines whether he has a drinking problem. It is the ability to control when and how he drinks that counts.

A person may drink only on weekends, but if he often gets drunk, he has a problem. If his drinking problems are so severe that he can't work or go to school, he has a drinking problem.

Many people also have the mistaken idea that an alcoholic has to have a morning drink to feel good. Again, if it is true that when one drinks, he is able to control the amount he drinks, it is true that a "morning drink" is not a sign of chronic alcoholism, but adding to alcohol can happen long before this becomes a necessity.

The research committee directing the toe corn study, said reports by the nearby Alcoholics Anonymous indicate "overwhelming success in their efforts to help people who have deformities that cause toe corns utilize in-home procedures which eradicate the basic cause."

The research committee, directed by the toe corn study, said reports by the nearby Alcoholics Anonymous indicate "overwhelming success in their efforts to help people who have deformities that cause toe corns utilize in-home procedures which eradicate the basic cause."

The toe corn, which is sold in causing disfigurement to Americans, results from an abnormal bone structure.
